

BL-IP

THE BATTERY IRRIGATION
CONTROLLER

Compatibility

9V valve

Stations

1/2/4/6

Power supply

9V

Connection

 **Bluetooth®**

Solenoid wires
maximum distance

30 m

Managed via

BL-IP

The BL-IP is a Bluetooth® and waterproof irrigation controller manageable with the MySOLEM app. It's the perfect solution when you need to install controllers where there is no power supply, as valve boxes or buried technical room. From an internet navigation on a computer, open MySOLEM.com platform and program your BL-IP. In a second time, go to the controller and transfer the program by using your smartphone in Bluetooth®.

2 types of programming (per station or per program)

Choose your type to realize programs from the simplest to the most successful.

It's the last time you will have to open your valve box

The BL-IP is remotely manageable with your smartphone or via MySOLEM.com.

Save water

Manage your controller's programming with your smartphone.

Geolocation of your controller

The location of your controller can be recorded on our application MySOLEM.

Durable and IP68 100% waterproof

Classified IP 68 (water and dust resilient).

Easy maintenance

Low battery alert, permanent programming save.
